

ASSEMBLY BILL

No. 1242

Introduced by Assembly Member Karnette

February 23, 2007

An act to amend Section 17071.10 of the Education Code, relating to school facilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 1242, as introduced, Karnette. School facilities: existing school building capacity.

The Leroy F. Greene School Facilities Act of 1998 requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

The act requires the calculation of existing school building capacity to be made on a one-time basis as a baseline for eligibility determinations, and requires each school district that elects to participate in the new construction program to submit to the board a one-time report of existing school building capacity. Notwithstanding those provisions, the act requires a school district newly formed, reorganized, or affected by reorganization pursuant to an election that occurred on or after November 4, 1998, to calculate or recalculate its existing school building capacity pursuant to regulations adopted by the board.

This bill would make technical, nonsubstantive changes to those provisions.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.
